PROFESSIONAL EXPERIENCE

Dfine Digital Solutions, *Internship*
04/2026 – 05/2026 | Malappuram, Kerala

- Designed a responsive website interface for a client project. The name of the website is Race Logistics. It is a logistics and import solutions company that helps businesses source products and manage shipments from China.
- Translated UI designs into functional frontend pages using HTML, CSS, and Bootstrap.
- Collaborated with developers to ensure usability, consistency, and performance.
- Supported UI testing and interface optimization to enhance user experience.

PROJECTS

App Design

- BillEase is a bill reminder app designed to help users manage their monthly bills efficiently. Many people find it difficult to keep track of multiple bills, which can lead to missed payments, late fees, and unnecessary stress. The app allows users to organize all their bills in one place, set reminders, receive timely notifications before due dates, and track payment status. By providing a simple and organized way to manage bills, BillEase helps users stay on top of their finances and avoid missing important payments.
- The wireframe, user flow, and interactive prototype for the app have been successfully completed.

Portfolio

- Design and Developed a personal portfolio on GitHub, implementing responsive UI using HTML, CSS, and Bootstrap.

E-commerce Website

- Developed Foodiva, a responsive e-commerce website designed for grocery shopping, enabling users to conveniently browse and purchase daily essentials online.
- The project involved creating end-to-end user flows, wireframes, and interactive prototypes for MVP validation, followed by implementing a responsive and user-friendly interface using HTML, CSS, and Bootstrap.
